Forecast for Saturday 16 Nov 2024

Weather: Overnight rain will clear south leaving a bright start by daybreak with sunny spells but a cooler, fresher feel will be noticeable with the change to northwesterly winds. Mostly dry through the day but a few showers may affect the more northerly fells. Showers will begin to turn wintry on the higher fells in the late afternoon and evening.

Chance of cloud-free hill tops above 800m: 70% rising to 95%, early cloud from overnight rain may be slow to clear.

Low cloud and visibility: Scattered cloud above 600m in the early morning will lift and clear leaving mainly clear summits throughout the day. In any wintry shower later scattered low cloud may form around higher fell tops. Visibility will become very good during the morning just dipping moderate in passing showers with a small risk of turning poor in a wintry shower.

Meteorologist's View

Note falling freezing level towards higher fell tops by the end of the day with fresh northwesterly winds it will feel much cooler than recently and a significant windchill is likely by Saturday evening.

Forecast for Sunday 17 Nov 2024

Weather: A dry and bright start to the day with some early sunshine after a dry overnight period. Cloud will thicken as a band of rain moves in from the west. Precipitation may be wintry at first but will turn to rain during the evening. Fresh north westerly winds continuing with a significant windchill likely in the morning.

Maximum wind: Northwesterly 15-20mph.

Chance of cloud-free hill tops above 800m: 90% falling to 30% by mid afternoon, cloud will spread in from the west.

Low cloud and visibility: Patchy cloud above 700m can be expected during the morning but most fell tops clear. Cloud will thicken and lower by late morning with layers above 400m developing by mid afternoon. Visibility will be very good during the morning but turning hazier. As the rain moves in visibility will be moderate or poor by mid afternoon.

Temperature: **Valleys:** Plus 3 rising to 9 Celsius.
At 800m: Minus 1 Celsius rising to 3 Celsius.
Freezing level: 700m above all summits.
